

bibi.

Instructions for use.

bibi. The lightweight and compact bath seat.

schuchmann®

Many thanks.

Dear Customer

At this point we would like to thank you for placing your trust in our company and for purchasing our product. We ask you to read through the Instructions for use carefully prior to initial commissioning of the product, and to observe them. Please note that guidelines and representations in these Instructions for use may deviate from your product due to differing equipment. We reserve the right to make technical modifications.

Important information!

Ensure that these Instructions for use remain with the product.

Your **schuchmann** Team

1. Preparation.

1.1 Delivery

On receiving the product, please check it for completeness, lack of faults and any transport damage. Inspect the goods in the presence of your forwarder. Should transport damage have occurred, please arrange for an inventory (determination of the faults) to be made in the presence of the forwarder. Please send a complaint in writing to the specialist dealer responsible.

1.2 Safety measures prior to use

The correct use of the product requires detailed and thorough instruction of the user or the accompanying person. We ask you to read through the Instructions for use carefully prior to initial commissioning of the product, and to observe them. It is possible that product parts that get in contact with the skin may heat up in the sun. Depending on the duration and intensity of solar radiation, the surfaces of individual parts can heat up to over 41°C and thus lead to slight burns in the event of direct skin contact. Therefore cover these areas or protect the device from direct sunlight.

1.3 Safe disposal

In order to preserve and protect the environment, to prevent environmental pollution and to improve the recycling of raw materials, please note the disposal instructions in **points 1.3.1 and 1.3.2**.

1.3.1 Packaging

The packaging of the product should be kept for any future transport that might be required. Should you have to return the product for repairs or in case of a guarantee claim, please if possible use the original box so that the product is optimally packaged. Otherwise, separate the packaging materials for recycling according to their classification.

Do not leave packaging materials unattended, as they are a possible source of danger.

1.3.2 Product

At the end of the product life cycle, recycle the raw materials used in the product according to their nature (see material information under **point 2.1**).

1.4 Where to store the instructions for use

Please store these Instructions for use carefully and ensure that these instructions for use remain with the product in case of re-use. Should you lose the instructions, you can always download an updated version at www.schuchmann.de.

2. Product description.

2.1 Material information

The frame is made from aluminium, free from corrosion and powder-coated in black. The internal structure of the ratchet joints is made of stainless steel and is free from corrosion. The removable and washable net cover is made from 100% polyester.

2.2 Transport / handling

Due to the low weight, **bibi.** can be handled with ease. You can lift the bath seat at any point. To transport the bath seat, adjust the settings to the most compact dimensions.

2.3 Application areas, use according to the intended purpose

The **bibi** mobile bath seat is a medical product of risk class 1 and is suited exclusively for use in bathtubs, showers, in the sandbox and on the beach. It supports the user who cannot sit freely and offers additional support thanks to retaining straps. Any other use or use over and above this purpose shall be considered not in accordance with the intended purpose.

2.3.1 Indication

The **bibi.** bath seat is suitable for:

- Users who are unable to sit or lie down in the bathtub due to dysfunction of the lower limb with significantly reduced or complete failed joint mobility
- Users with limitation to the muscular strength of the lower extremities
- Users with damage to the nervous system, damage to neuromusculoskeletal functions
- Users with damage to the movement-related function and/or muscle function and/or with damage to the neurological function
- Users with movement patterns with significantly reduced or failed trunk control or reduced or failed body control

2.3.2 Contraindications

In general, the indication should be accompanied by a doctor/orthopaedist. It should therefore be clarified prior to procurement whether contraindications exist for the patient. In general, any type of pain represents a contraindication.

2. Product description.

2.4 Use not in accordance with the intended purpose / warning guidelines

- Make sure that the bath seat is used by only one user.
- Never leave the user unattended in the bath seat.
- The correct use of the bath seat requires precise and careful training of the attending caregiver.
- The max. load of 30 kg must not be exceeded.
- Do not use the bath seat with defective, worn or missing parts.
- For fire safety reasons, the bath seat must not be placed near an open fire or other strong heat source such as an electric or gas heater.
- Use only accessories and spare parts made by Schuchmann, otherwise you will compromise the safety of the user.
- Use the bath seat only if all components have been correctly fitted and adjusted.
- The bath seat is not suitable to transport persons.
- Users with reading difficulties must have the instructions read to them to understand handling the bath seat.

2.5 Equipment for basic model

- Aluminium frame with removable cover
- Backrest can be adjusted at an angle
- incl. lap belt

2.6 List of accessories

- additional lap belt

2.7 Product overview

Seat

3. Settings.

Settings and adjustments to the product or accessories may only be made by people who have been given the necessary instructions by a medical product advisor. Please ensure that none of the user's extremities are in the respective area when making adjustments of any kind to minimise the risk of injury.

3.1 Back angle

The backrest can be adjusted at an angle. To this end, press the two ratchet joints (A) simultaneously and put the backrest in the desired position. After the positioning, release the ratchet joints and ensure that the ratchet joints have engaged.

bibi. can be folded in a space-saving manner for transport.

The ratchet joints must engage after each adjustment!

3.2 Cover

The cover can be adjusted via the belt loops in the back or seat area. To this end, you can use two belt loops for the back area (B) and two for the seat area (C).

Make sure that the hook and loop closures are closed!

4. Cleaning and maintaining.

4.1 Cleaning and disinfecting

4.1.1 Cleaning

Please clean all frame elements regularly with a sponge or damp cloth; making sure that water droplets are removed. Please clean with a mild household detergent for severer dirt. Thorough drying of the cleaned areas is important.

All fabrics that cannot be removed can be wiped with a moist cloth. For all removable fabrics please pay attention to the sewn-in care labels (such as **A + B**) on the respective element.

Please also pay attention to our general cleaning and hygiene advice. This can be found at www.schuchmann.de/mediathek.

4.1.2 Disinfection

Various products can be used for surface disinfection of metal and plastic parts.

Liquid disinfectants are available as ready-to-use solutions that are sprayed on and evenly applied with a soft cloth. Alternatively, wipes pre-soaked with disinfectant can be used to wipe the products over the entire surface. In both cases, care must be taken to ensure complete wetting. Disinfection in fully automatic disinfection systems is also possible and recommended. The exposure times may vary and can be found in the manufacturer's instructions for the products used.

4.2 Servicing

Please carry out a visual inspection on a daily basis and regularly check the product for cracks, breaks, missing parts and malfunctions. In case of a defect or malfunction, please contact the specialist dealer who supplied you with the product (see **Point 7.5**).

4.3 Maintenance

The product does not require maintenance.

4. Cleaning and maintaining.

4.4 Spare parts

Use only original accessories and original spare parts from Schuchmann, as otherwise the safety of the user is endangered and the warranty expires.

To order spare parts, please contact the supplying specialist dealer (see **point 7.5**) stating the serial number of the product. Necessary spare parts and accessories must only be installed by trained personnel.

4.5 Duration of use and re-use

The expected duration of use of our product, dependent on the usage intensity and amount of re-use, totals up to "8" years if the usage takes place in accordance with the information in these Instructions for use. It may be possible to use the product over and above this time period if it is in a safe condition. The expected duration of use does not refer to wear parts, such as for example wheels, gas pressure springs,... . The maintenance and evaluation of the condition, and if applicable the potential for re-use, must be decided by the specialist dealer.

The product is suited for re-use. Prior to forwarding, please follow the cleaning and disinfection instructions stated in **point 4.1**. Accompanying documents such as these Instructions for use are part of the product and must be passed on to the new user. No disassembly is required prior to re-use. In the case of storage, it is recommended to fold the product to the smallest dimension to save space.

Should a serious incident occur during the service life of the product despite being used as intended, this must be reported immediately to the manufacturer and the competent authority.

5. Technical data.

Dimensions

		bibi.	bibi. with long backrest
A	Seat depth	30 cm	30 cm
B	Seat width	36 cm	36 cm
C	High back	45 cm	55 cm
D	Total length	60 cm	60 cm
	Back angle	90° - 180°	90° - 180°
	max. load	30 kg	30 kg
	Weight	2.3 kg	2.3 kg

6. Guarantee.

The two-year statutory guarantee period shall apply for all products. It starts with the delivery or handover of the goods. Should a verifiable material or manufacturing fault occur within this time period, we shall, after carriage paid return to us, view the indicated damage and, if applicable, either repair or deliver a new product at our discretion.
